**Indiana Department of Homeland Security (IDHS)
Emergency Operations Center
Monday, September 15, 2008, 9:00 p.m.**

The IDHS Emergency Operations Center is activated and will remain to monitor conditions and provide resource support to local county emergency agencies.

Description of Incident

The remnants of Hurricane Ike have accelerated rapidly and moved out Indiana. As much as 10 inches of rain has fallen and widespread flooding is being reported across northwest Indiana. Damage from straight line winds has been reported in numerous counties across central and southern parts of the State. Widespread reports of trees and power lines down have also been received.

Current Situation

The remnants of Hurricane Ike accelerated rapidly and has moved out of Indiana. No significant rain is forecasted for the next couple days.

Flooding continues to be an issue through the affected counties.

The dam at Lake Dalecarlia in Lowell, Indiana in Lake County was over topped and damaged.

Boil Orders – Customers of Kent Water Company, in the eastern portion of Scott County, is currently under boil water advisory. South Bend’s water boil order, which was issued Sunday for a portion of the northwest side, is still in effect. The boil order is for the area bounded by Bendix Drive on the west, Riverside Drive on the east, Lathrop Street on the south and Brick Road on the north. The order is expected to continue through Wednesday.
